OBJECTIVE

Associate Software Engineer with 1.5 + years of experience in building backend and cross-platform applications using .NET, C#, ASP.NET Web API, and SQL Server. Currently working on a Smart Kiosk & POS system for a US-based client, with hands-on experience in REST APIs, Clean Architecture, and client collaboration.

TECHNICAL SKILLS

- **Programming Languages** : C#, .NET Core, Object-Oriented Programming (OOP)
- **Web Technologies** : ASP.NET, ASP.NET MVC, HTML5, CSS3
- **Database** : MS SQL Server, ADO.NET
- **Frameworks & Libraries** : Entity Framework, Bootstrap, .NET Framework
- **Tools & IDEs**: Visual Studio, SQL Server Management Studio (SSMS)
- **Architecture & Concepts** : RESTful APIs, Multi-Layer Architecture

PROFESSIONAL EXPERIENCE

Futurism Technologies — Pune, MH, India

Associate Software Engineer

1.4 Years

Project : Smart Kiosk & POS System

Worked with a US-based client on a Smart Kiosk & POS system

Technologies: ASP.NET Web API, .Net Core, C#

- Developed and maintained RESTful APIs using ASP.NET Core and C#, following Clean Architecture principles.
- Contributed to a Smart Kiosk & POS system by building modules for order processing, payments, and inventory management.
- Collaborated with a US-based client to gather requirements and deliver features aligned with business needs.
- Improved API performance through query optimization and efficient backend design.
- Implemented secure authentication and authorization mechanisms using JWT.
- Worked in Agile teams, participating in sprint planning, code reviews, and daily stand-ups.
- Troubleshoot and resolved production issues, ensuring system reliability and minimal downtime.

Cravita Technologies Pvt. Ltd. – Pune

July 2024 – December 2024 (6 Months)

.NET Trainee

- Gained hands-on experience in project planning, idea execution, and team collaboration.
- Developed and maintained web applications using .NET Core and ASP.NET.
- Designed and optimized databases using SQL Server for efficient data management.
- Participated in code reviews and resolved bugs to maintain high code quality.

PERSONAL PROJECT'S

Farmer Mitr – Personal Project

2025

Tech Stack: ASP.NET Web API, C#, SQL Server, REST APIs, HTML

- Designed and developed end-to-end agri-tech platform connecting farmers with local agri-input shops.
- Built RESTful Web APIs using ASP.NET Web API for Admin, Shopkeeper, and Farmer modules.
- Implemented features like stock visibility, product reviews, loyalty programs, and multilingual support.
- Designed scalable database schema in SQL Server and optimized queries for performance.
- Developed role-based workflows for order management, inventory tracking, and notifications.

LoomLink - Personal Project

2026 - Continue working

Tech Stack: ASP.NET Core Web API, C#, SQL Server, ADO.NET, Swagger

Role: Backend Developer & Module Ownership

- Developed a scalable full-stack platform connecting traditional artisans directly with customers, enabling personalized product inquiries, dynamic pricing, and structured order workflows.
- Designed and implemented a multilayer architecture (Application, Domain, Infrastructure) using ASP.NET Core Web API to ensure clean separation of concerns and maintainability.
- Built core backend functionalities including product listing, wishlist management, and a non-linear order flow (inquiry → discussion → price finalization → order placement).
- Implemented a flexible pricing model to handle seller-specific variations based on location, customization, and artisan margins.
- Developed RESTful APIs using C# and integrated them with a React-based frontend for seamless user experience.
- Utilized ADO.NET and SQL Server for data access, including stored procedures and optimized queries for performance and scalability.
- Designed database schemas to support extensibility for future features such as real-time messaging between customers and artisans.
- Managed end-to-end deployment on Amazon Web Services EC2, hosting ASP.NET Core APIs, SQL Server database, and React frontend in a unified environment.
- Performed API testing and documentation using Swagger and ensured smooth integration between frontend and backend systems.
- Collaborated on feature planning, debugging, and module coordination to ensure timely delivery and system stability.

EDUCATION

Bachelor of Computer Applications (BCA)

Vishwalata Arts, Commerce & Science College Savitribai Phule Pune University

2021 – 2024 7.54 CGPA

Higher Secondary Certificate (HSC)

Vinayakrao Patil Vidyalaya College, Vaijapur Maharashtra State Board

2019 – 2021 Percentage: 87.67%

Secondary School Certificate (SSC)

Saraswati Vidyalaya, Saigaon Yeola | Maharashtra State Board

2018 – 2019 Percentage: 69.20%
